Update: ACPE Standards for Continuing Pharmacy Education - Upcoming Review of Compliance with Standard 5 Standards for Integrity and Independence

The CPE Commission, Board, and Staff periodically analyze data on the achievement of ACPE CPE Standards and Policies (CPE Rubric Summary F2019–S2023). Findings indicate that Standard 5 (Standards for Integrity and Independence) has consistently shown less than 65% compliance. To support providers in meeting compliance requirements, ACPE staff will facilitate a review in summer 2025, requesting some providers who have not been reviewed to submit policies, procedures, and mechanisms for obtaining financial disclosures. More details will be shared in the coming months.

Educational Opportunities

ACPE is pleased to offer a variety of CPE educational opportunities that range from an upcoming virtual CPE Administrator Workshop to the 2024 CPE Conference session recordings and materials. Each educational opportunity listed below is available to everyone!
