Framework for CPE Activity Types and Learning Objectives

Relative to taxonomies of learning, ACPE CPE activity types fall along a continuum of learning, starting at Knowledge, moving through Application, and ending with Certificate. Learning across this continuum will generally progress from being more cognitive, theoretical and shallow with Knowledge-based activities to becoming more practical, applied and deep with Application-based and Certificate Programs, including additional elements from psychomotor and affective domains that emphasize the systematic application of content, skills and attitudes to real-life practice.

Bloom’s Taxonomy

ACPE Classification

Knowledge

Application

Certificate

Creating

Deep

Shallow

Recall of previously learned material

Remembering

Recall of previously learned material

Understanding

Ability to explain ideas/concepts

Applying

Use of learned information in a new way

Analyzing

Breakdown into component parts

Evaluating

Ability to judge value of material

Creating: Assemble, compose, construct, create, design, develop, formulate, generate, invent, manage, organize, plan, propose, revise, set up
