Definitions: (for additional details, please refer to the Certification Policies and Procedures)

Affirmed: An action to “affirm” implies that a previously established certification term has been confirmed.

Certification/Certified: The Certification Status granted or continued by ACPE to a Professional Degree Program in a country other than the United States and its territories that demonstrates compliance with most or all Quality Criteria and meets all ACPE’s requirements for such recognition.

Certification Status: The type of public recognition granted or continued by ACPE; the possible types are:

- Certification/Certified
- Provisional Certification/Provisionally Certified
- Certification with Probation/Certified with Probation

Certification with Probation/Certified with Probation: The Certification Status granted to a Professional Degree Program that has been identified by ACPE as being partially or non-compliant with one or more of the Quality Criteria and that has not made adequate progress towards bringing the Criterion/Criteria into compliance. A status of Certified with Probation is disclosed to the public and listed as such in the Directory.

Comprehensive Visit: An on-site visit conducted by a team of evaluators to assess the compliance of the program with all Quality Criteria for the purpose of either (a) an application for Certification or (b) continuing Certification after the expiration of the standard review cycle as defined by ACPE.

Continued: An action to “continue” implies that the certification term has been extended.

Focused Visit: An on-site evaluation conducted by one or two evaluators for the purpose of either (a) evaluating compliance of the program against specific quality criteria previously found to be non-compliant, partially compliant, or compliant with monitoring or (b) evaluating continued compliance of the program two-years after the granting of initial certification. A focused on-site evaluation is not preceded by a comprehensive self-study by the school, but other forms of reporting may be required.

Grant: The awarding of a Certification Status.

Interim Report: A report that provides updates and details of progress in a specific area of concern regarding quality criteria that have been identified by ACPE as being non-compliant, partially compliant, or complaint with monitoring.

Provisional Certification/Provisionally Certified: The Certification Status granted by ACPE to a Professional Degree Program in a country other than the United States and its territories that may have factors that compromise compliance with Quality Criteria, but that has initiated appropriate plans to address such factors, and meets all ACPE’s requirements for such recognition.
