

Accreditation Council for Pharmacy Education International Services Program

Fee Schedule

January 1, 2017 – December 31, 2017

The Accreditation Council for Pharmacy Education (ACPE) is a not-for-profit organization. Fees for evaluation, consultation, training, certification, and other services provided by ACPE's International Services Program (ISP) are set at a level intended to defray the actual cost to provide the service(s) and assist in the support and continued improvement of the services. An annual fee is charged for maintenance of Certification Status. ACPE may adjust the fees and set effective dates for such adjustments at any regular or special meeting of the ACPE Board. Information regarding the current fee policy is available upon request. For more information, please send an email to international@acpe-accredit.org.

Effective 2016, ACPE has adopted a tiered fee structure which takes into consideration the economic status of a country. For this purpose, ACPE uses World Bank data (gross national income per capita) and country classifications; see <http://data.worldbank.org/country>. The ACPE Board has adopted the following tiers:

- Tier A: High Income Countries
- Tier B: Upper Middle Income Countries
- Tier C: Lower Middle and Low Income Countries

In determining what fees will apply to an institution or organization applying for a service(s), ACPE will refer to World Bank data for the year in which the service is provided, or if such data are not yet available, the latest available data. For additional details relating to fees, please refer to Paragraph 18 of ACPE's *Policies and Procedures for Certification of Professional Degree Programs in Pharmacy in Countries other than the United States and its Territories* (<https://www.acpe-accredit.org/international-services-program/>). Terms used in the Fee Schedule are defined in the *Policies and Procedures* document.
