

What is PLAN MY CE?

The **Pharmacy Learning Assistance Network (PLAN MY CE)** is a continuing pharmacy education information service provided to pharmacists and pharmacy technicians through Accreditation Council for Pharmacy Education.

PLAN MY CE allows you to find continuing education activities by:

- Selecting the type of activity (knowledge, application, or practice) you want to attend
- Choosing your activity format (home study or live)
- Choosing your topic designator
- Selecting activity dates and/or locations to suit your schedule
- Identifying continuing education activities from a specific organization
- Searching for state requirements
- Searching for board recertification courses
- Search by profession:
 - Pharmacist, Pharmacy Technician or Other Healthcare Professional
 - Provider, State Board or Other
- Do a **Standard** search OR search by **UAN or Title**
 - **UAN example: 0197-0000-23-001-H01-P or JA0000001-0000-23-001-L01-T**

TOPIC DESIGNATORS

01: Disease State Management and Drug Therapy-activities that address drugs, drug therapy, and/or disease states.

02: HIV/AIDS-Activities that address therapeutic, social, ethical, or psychological issues related to the understanding and treatment of patients with HIV/AIDS

03: Law Related to Pharmacy Practice-activities that address federal, state, or local laws and/or regulations affecting the practice of pharmacy

04: Pharmacy Administration-activities that address topics relevant to the practice of pharmacy that include the economic, social, administrative, and managerial aspects of pharmacy practice and healthcare.

05: Patient Safety-activities that address topics relevant to the prevention of healthcare errors and the elimination or mitigation of patient injury caused by healthcare errors.

06: Immunizations-activities related to the provision of immunizations, i.e., recommend immunization schedules, administration procedures, proper storage and disposal, and record keeping. This also includes review for appropriateness or contraindication and identifying and reporting adverse drugs events and providing necessary first aid.

07: Compounding-activities related to sterile, nonsterile, and hazardous drug compounding for humans and animals. This includes best practices and USP quality assurance standards, environmental testing and control, record keeping, error detection and reporting, and continuous quality improvement processes.

08: Pain Management- activities that address any component regarding the treatment and management of pain, including the prescribing, distribution, and use of opioid medication, and/or the risks, symptoms, and treatments of opioid misuse/addiction.

99: Additional Topic Areas-activities related to topics relevant to the practice of pharmacy not included in the classifications of the topic designators 01-08
