

**ACCREDITATION COUNCIL FOR PHARMACY EDUCATION**  
**REPORT OF PROCEEDINGS – June 19-22, 2019**

**I. Public Interest Panel Review of Professional Degree Programs**

The ACPE Public Interest Panel met on June 17, 2019, to discuss the professional degree programs scheduled for review by the ACPE Board of Directors during its June 2019, meeting. Evaluation team reports and other materials associated with the evaluation of the professional degree programs were duly considered, and a report of the Panel's discussion was prepared and presented to the ACPE Board at its June 19-22, 2019, meeting. The Board considered the comments and recommendations of the Panel. Panel members who participated in the meeting of the Public Interest Panel were: Dana Thomas, Deborah Kapp, and Howell Todd.

**II. Accreditation Actions for Professional Degree Programs, taken at the ACPE Board of Directors Meeting, June 19-22, 2019**

A list of accredited professional degree programs of colleges and schools of pharmacy, which designates the respective preaccreditation and accreditation status of the programs and the academic year for the next currently scheduled evaluation, is posted on the ACPE web site at [www.acpe-accredit.org](http://www.acpe-accredit.org).

**Accreditation Actions**

On the basis of self-studies, on-site evaluations, communications received from the institutions, ongoing annual review of North American Pharmacist Licensure Examination (NAPLEX) passing rates, entry class size, and attrition and on-time graduation rates, as well as the comments of the Public Interest Panel, the Board of Directors determined the accreditation status of the following professional programs, along with preaccreditation and accreditation terms and conditions.

In order to be eligible for initial or continuing accreditation, the Doctor of Pharmacy program must be part of an independent College or School of Pharmacy or a College or School of Pharmacy within a University, which is regularly incorporated and is a legally empowered postsecondary educational institution. The institution housing the College or School, or the independent College or School, must be accredited by a regional accreditation agency recognized by the U.S. Department of Education or another agency acceptable to the Accreditation Council for Pharmacy Education (ACPE). Accreditation standards call for a College or School of Pharmacy as an organizational unit and the administrative structure of the College or School of Pharmacy must provide for a Dean, who serves as the chief administrative and academic officer. Evaluation for purposes of preaccreditation and initial or continued accreditation requires an invitation by the chief executive officer, or designate, of the institution.

An action to "affirm" implies that a previously established accreditation term has been confirmed. An action to "continue" implies that the accreditation date has been extended. The customary review cycle for established accredited programs had been six years but it was extended to eight years as programs were reviewed beginning with Board actions at the January 2012 meeting and beyond.

The customary review cycle for new programs achieving initial accreditation status is two years. The dates indicated in parentheses for each College or School are the academic year of the most recent determination of accreditation status and the academic year of the next scheduled comprehensive or focused review for determination of accreditation status, and thus define the present accreditation term for the Doctor of Pharmacy program. An (\*) following these dates indicate a shortened accreditation term.

The accreditation actions are as follows:

**For Purposes of Considering Continued Accreditation Status**

**California Northstate University College of Pharmacy**

Doctor of Pharmacy Program: Accredited status continued. (2018-2019) (2020-2021)\*

**Notre Dame of Maryland University School of Pharmacy**

Doctor of Pharmacy Program: Accredited status continued. (2018-2019) (2026-2027)  
Standard found to be Partially Compliant: Standard No. 17

**Review of Complaints**

Twenty four complaints, twenty from either a student or faculty member from one of seventeen accredited Doctor of Pharmacy programs, were received during the spring 2019 cycle. Following the Board's review of each complaint, twenty three complaints are closed based on the results of ACPE's investigation. One complaint remains open and is under investigation.

- III. **Accreditation Actions for Providers of Continuing Pharmacy Education** ACPE Board of Directors accepted the report of the ACPE Continuing Pharmacy Education Commission at the June 2019 meeting.

<b>1.</b>	<b>Accreditation of New Applications</b> Organizations seeking ACPE-accredited provider status are asked to submit an Application for Initial Accreditation. This application asks questions regarding the applicant's experience relative to areas addressed by ACPE's standards for continuing pharmacy education. Staff recommendations for initial accreditation are based on an assessment of the applicant's ability and intent to comply with ACPE's standards. Initial terms of accreditation are usually for a short term with a First Review in 1 year and a Second Review in 2 years.

**IV. Accreditation Actions for Joint Accreditation for Interprofessional Continuing Education™**

Eleven organizations are presented for review this cycle. The decisions will be presented when each of the three boards from the Accreditation Council for Pharmacy Education (ACPE), American Nurses Credentialing Center (ANCC) and the Accreditation Council for Continuing Medical Education (ACCME) convene.

**V. Certification Actions for Professional Degree Programs based outside the United States of America and its Territories:**

**Certification Actions**

On the basis of self-studies, on-site evaluations, communications received from the institutions, as well as the comments and recommendations of the ACPE International Commission, the Board of Directors determined the Certification Status of the following professional degree programs, along with Certification terms and conditions.

In order to be eligible for Precertification or Certification, the professional degree program in pharmacy must be part of an independent school of pharmacy or a school of pharmacy within a university. The school or university must be a postsecondary educational institution that is regularly incorporated, legally empowered, and authorized to award such a degree in accordance with national and/or regional laws and regulations. The institutional environment or setting for the professional degree program must be equivalent to a university and include a mission that encompasses professional education, scholarship, research, and service. To be granted Certification, the school of pharmacy must have graduated at least one class of students from the professional degree program in pharmacy for which Certification is being applied. Evaluation for

purposes of granting or continuing of Precertification or Certification by ACPE requires an invitation by the chief executive officer or designate of the institution.

To apply for Precertification of Certification, a school must submit an application, a self-study report of the program, and any additional materials specified by ACPE. After receipt of the application, self-study report, and other required materials, a preliminary review of the application is carried out to confirm eligibility and evaluate the application. The findings and conclusions from the review are presented to the International Commission, which in turn makes a recommendation to the Board regarding authorization of an on-site evaluation. If the Board authorizes an on-site evaluation, it is scheduled in accord with standard evaluation and operational procedures.

The customary review cycle (period between comprehensive on-site evaluation visits) for established certified programs is six years. The customary term for programs granted initial Certification is two years. The customary term for programs granted Provisional Certification is two years. The dates indicated in parentheses for each college or school are the academic year<sup>1</sup> of the most recent determination<sup>2</sup> of Certification Status and/or Certification term and the academic year of the next scheduled determination of Certification Status and/or term, and thus define the present Certification term for the professional degree program.

The Certification actions are as follows:

#### **For Purposes of Considering Authorizing an On-Site Evaluation Visit**

The Board authorized on-site evaluation visits for the following programs; visits are scheduled for the Fall 2019 Cycle:

**Al-Zaytoonah University of Jordan, Faculty of Pharmacy, Amman, Jordan**, Bachelor of Science in Pharmacy Degree Program

**Prince Sattam Bin Abdulaziz University, College of Pharmacy, Al-Kharj, Saudi Arabia**, Bachelor of Pharmaceutical Sciences Degree Program

#### **For Purposes of Considering Granting Certification**

The Board granted Certification to the following programs:

**University of Surabaya, Faculty of Pharmacy, Surabaya, Indonesia**, Pharmacy Education Program (combination of Bachelor of Pharmacy and Professional Program of Pharmacy) (2018-2019) (2020-2021)

**Gulf Medical University, College of Pharmacy, Ajman, United Arab Emirates (UAE)**, Doctor of Pharmacy Degree Program (2018-2019) (2020-2021)

---

<sup>1</sup> For consistency, certification cycles and academic years are named in accordance with the standard terminology used by ACPE for accreditation and certification activities and reporting. Academic years run from July 1 to June 30.

<sup>2</sup> Determination includes granting of Certification Status, a change of Certification Status, a continuation of Certification Status (new term), and other changes of a certification term (e.g., shortening); it does not include affirmation of an existing Certification Status and term.

### **For Purposes of Considering Continued Certification (comprehensive on-site visit)**

**King Saud University (KSU) College of Pharmacy, Riyadh, Saudi Arabia**, Bachelor of Pharmacy and Doctor of Pharmacy Degree Programs (2018-2019) (2024-2025)

### **Focused On-site Evaluation Visits**

Focused on-site evaluation visits are authorized when the Board desires additional on-site monitoring to evaluate various programmatic issues. An action to “affirm” implies that a previously established certification term has been confirmed. An action to “continue” implies that the certification term has been extended.
