

ACCREDITATION COUNCIL FOR PHARMACY EDUCATION
REPORT OF PROCEEDINGS
June 16-18, 2021

I. Public Interest Panel Review of Professional Degree Programs

The ACPE Public Interest Panel met on June 10, 2021, to discuss the professional degree programs scheduled for review by the ACPE Board of Directors during its June 16-18, 2021, meeting. Evaluation team reports and other materials associated with the evaluation of the professional degree programs were duly considered, and a report of the Panel's discussion was prepared and presented to the ACPE Board at its June 16-18, 2021, meeting. The Board considered the comments and recommendations of the Panel. Panel members who participated in the meeting of the Public Interest Panel were: Mary Donnelly, Deborah Kapp, and Howell Todd.

II. Accreditation Actions for Professional Degree Programs, taken at the ACPE Board of Directors Meeting, June 16-18, 2021

A list of accredited professional degree programs of colleges and schools of pharmacy, which designates the respective preaccreditation and accreditation status of the programs and the academic year for the next currently scheduled evaluation, is posted on the ACPE web site at www.acpe-accredit.org.

Accreditation Actions

On the basis of self-studies, virtual on-site evaluations, communications received from the institutions, ongoing annual review of North American Pharmacist Licensure Examination (NAPLEX) passing rates, entry class size, and attrition and on-time graduation rates, as well as the comments of the Public Interest Panel, the Board of Directors determined the accreditation status of the following professional programs, along with preaccreditation and accreditation terms and conditions.

In order to be eligible for initial or continuing accreditation, the Doctor of Pharmacy program must be part of an independent College or School of Pharmacy or a College or School of Pharmacy within a University, which is regularly incorporated and is a legally empowered postsecondary educational institution. The institution housing the College or School, or the independent College or School, must be accredited by a regional accreditation agency recognized by the U.S. Department of Education, another agency acceptable to the Accreditation Council for Pharmacy Education (ACPE), or actively seeking such status and in good standing with that agency. Accreditation standards call for a College or School of Pharmacy as an organizational unit and the administrative structure of the College or School of Pharmacy must provide for a Dean, who serves as the chief administrative and academic officer. Evaluation for purposes of preaccreditation and initial or continued accreditation requires an invitation by the chief executive officer, or designate, of the institution.

An action to "affirm" implies that a previously established accreditation term has been confirmed. An action to "continue" implies that the accreditation date has been extended. The customary review cycle for established accredited programs had been six years but it was extended to eight years as programs were reviewed beginning with Board actions at the January 2012 meeting and beyond.

The customary review cycle for new programs achieving initial accredited status is two years. The dates indicated in parentheses for each College or School are the academic year of the most recent determination of accreditation status and the academic year of the next scheduled comprehensive or focused review for determination of accreditation status, and thus define the present accreditation term for the Doctor of Pharmacy program. An (*) following these dates indicate a shortened accreditation term. The accreditation actions are as follows:

For Purposes of Considering Continued Accredited Status

Review of Complaints

Eleven complaints, eight from either a student or faculty member from one of six accredited Doctor of Pharmacy programs, were received during the spring 2021 cycle. Following the Board’s review of each complaint, all are closed based on the results of ACPE’s investigation.

Policy Updates

The ACPE Board of Directors approved an update to the Policies and Procedures Manual in June 2021. The updated manual can be found on the ACPE website at: https://www.acpe-accredit.org/pdf/CS_PoliciesandProceduresJune2021.pdf.

Standards Revision

The ACPE Board of Directors authorized a Standards Revision initiative commenced during Spring 2021 and conclude with the release of new accreditation standards in June 2024, with implementation to begin on July 1, 2025. A stepwise outline of the revision process will be forthcoming and include multiple opportunities for the profession and the public to provide input into the revision process of ACPE’s Accreditation Standards and Key Elements for the Professional Program in Pharmacy Leading to the Doctor of Pharmacy Degree. These new standards will be known as “Standards 2025.”

III. Accreditation Actions for Providers of Continuing Pharmacy Education.

The ACPE Board of Directors accepted the report of the ACPE Continuing Pharmacy Education Commission at the June 16-18, 2021 meeting. Results of the evaluation of submitted applications and ACPE-accredited providers reviewed for reaccreditation by the Commission were presented to the ACPE Board of Directors in June 2021. These are depicted in these Report of the Proceedings as follows:

1.	Accreditation of New Applications: Organizations seeking ACPE-accredited provider status are asked to submit an Application for Initial Accreditation. This application asks questions regarding the applicant’s experience relative to areas addressed by ACPE’s standards for continuing pharmacy education. Initial terms of accreditation are usually for a short term with a First Review in 1 year and a Second Review in 2 years.			
	Applicant Organization	Provider Type	State	Term
1.	NBLS, Inc.	Educational Company	FL	2-year
2.	Submission of First Review by Applicants Accredited in Spring 2020.

	Second Review Spring 2021 (Accredited in Spring 2019)	Provider Type	State	Interim Report	Comprehensive Review
1.	Avant Institute	Educational Company	NC		Spring 2025

4.	Consideration for Continued Accreditation on the Basis of Comprehensive Reviews. The submitted Self-Assessment Report undergoes a CPE Commissioner review, an internal (ACPE staff) review, an external (Field reviewer) review, a review of all records including correspondence, Activity Description Forms (ADFs), complaints (if any) and third party comments. The Comprehensive Review for Continued Accreditation provides the basis for the Council's action to continue the provider's term of accreditation. The standard term of accreditation is six years.

1.	Memorial Hermann	Other	TX	Spring 2023

6.	Consideration for Continued Accreditation on the Basis of Progress Reports. Providers who have a shortened term of accreditation of 1 year are asked to submit a Progress Report. A Progress Report addresses only those issues that remain of concern following the previous Comprehensive Review or Interim Report. However, because the provider has been given a shortened term of accreditation, the Progress Report, like the Comprehensive Review, serves as the basis for the Council to act to continue recognition as an accredited provider.

7.	Consideration for Continued Accreditation on the Basis of Interim Reports. Providers with a standard term of accreditation of 6 years are asked to submit an Interim Report, usually in one or two years. The Interim Report serves as an update on specific issues that were identified in the provider's Comprehensive Review. Action required to affirm status and terms and to determine additional reporting as needed or to modify previously established terms and determine new reporting requirements.

IV. Accreditation Actions for Joint Accreditation for Interprofessional Continuing Education™

Twelve new applicants, ten reaccreditations, and eleven Progress Reports are presented for review this cycle. The decisions will be presented when each of the three boards from the Accreditation Council for Pharmacy Education (ACPE), American Nurses Credentialing Center (ANCC) and the Accreditation Council for Continuing Medical Education (ACCME) convene.

V. **Certification and Precertification Actions for Professional Degree Programs based outside the United States of America and its Territories:**

Certification and Precertification Actions

On the basis of self-study reports, interim reports, virtual on-site evaluations, communications received from the institutions, as well as the comments and recommendations of the ACPE International Commission, the Board of Directors determined the Certification Status of the following professional degree programs, along with Certification and Precertification terms and conditions.

In order to be eligible for Precertification or Certification, the professional degree program in pharmacy must be part of an independent school of pharmacy, a school of pharmacy within a university, or other structure approved by the Board. The school or university must be a postsecondary educational institution that is regularly incorporated, legally empowered, and authorized to award such a degree in accordance with national and/or regional laws and regulations. The institutional environment or setting for the professional degree program must be equivalent to a university and include a mission that encompasses professional education, scholarship, research, and service. To be granted Certification, the school of pharmacy must have graduated at least one class of students from the professional degree program in pharmacy for which Certification is being applied. Evaluation for purposes of granting or continuing of Precertification or Certification by ACPE requires an invitation by the chief executive officer or designate of the institution.

To apply for Precertification or Certification, a school must submit an application, a self-study report of the program, and any additional materials specified by ACPE. After receipt of the application, self-study report, and other required materials, a preliminary review of the application is carried out to confirm eligibility and evaluate the application. The findings and conclusions from the review are presented to the International Commission, which in turn makes a recommendation to the Board regarding authorization of an evaluation visit. If the Board authorizes an evaluation visit, it is scheduled in accord with standard evaluation and operational procedures.

The customary review cycle (period between comprehensive on-site evaluation visits) for established certified programs is six years. The customary term for programs granted initial Certification is two years. The maximum term for programs granted Provisional Certification (Category 1) is two years. The dates indicated in parentheses for each college or school are the academic year¹ of the most recent determination² of Certification Status and/or Precertification or Certification term and the academic year of the next scheduled determination of Certification Status and/or term, and thus define the present Precertification or Certification term for the professional degree program.

The Certification and Precertification actions are as follows:

For Purposes of Considering Authorizing an Evaluation Visit for Certification

¹ For consistency, certification cycles and academic years are named in accordance with the standard terminology used by ACPE for accreditation and certification activities and reporting. Academic years run from July 1 to June 30.

² Determination includes granting of Certification Status, a change of Certification Status, a continuation of Certification Status (new term), and other changes of a certification term (e.g., shortening); it does not include affirmation of an existing Certification Status and term.

The Board authorized evaluation visits, to be conducted using a virtual format, for the following programs:

Al-Ahliyya Amman University, Faculty of Pharmacy, Amman, Hashemite Kingdom of Jordan, BPharm Degree Program

Middle East University, Faculty of Pharmacy, Amman, Hashemite Kingdom of Jordan, B.Sc. Degree Program

Dubai Pharmacy College for Girls, Dubai, United Arab Emirates, BPharm Degree Program

RAK Medical and Health Sciences University, College of Pharmacy, Ras al Khaimah, United Arab Emirates, BPharm Degree program

For Purposes of Considering Granting Certification

The Board granted Certification to the following programs: none.
