

ACCREDITATION COUNCIL FOR PHARMACY EDUCATION
REPORT OF PROCEEDINGS
June 14-16, 2023

I. Public Interest Panel Review of Professional Degree Programs

The ACPE Public Interest Panel met on June 8, 2023, to discuss the professional degree programs scheduled for review by the ACPE Board of Directors during its June 14-16, 2023, meeting. Evaluation team reports and other materials associated with the evaluation of the professional degree programs were duly considered, and a report of the Panel's discussion was prepared and presented to the ACPE Board at its June 14-16, 2023, meeting. The Board considered the comments and recommendations of the Panel. Panel members who participated in the meeting of the Public Interest Panel were: Mary Donnelly, Tim P. Donovan, and Howell Todd.

II. Accreditation Actions for Professional Degree Programs, taken at the ACPE Board of Directors Meeting, June 14-16, 2023

A list of accredited professional degree programs of colleges and schools of pharmacy, which designates the respective preaccreditation and accreditation status of the programs and the academic year for the next currently scheduled evaluation, is posted on the ACPE web site at www.acpe-accredit.org.

Accreditation Actions

On the basis of self-studies, comprehensive and focused evaluations, communications received from the institutions, ongoing annual review of North American Pharmacist Licensure Examination (NAPLEX) passing rates, entry class size, and attrition and on-time graduation rates, as well as the comments of the Public Interest Panel, the Board of Directors determined the accreditation status of the following professional programs, along with preaccreditation and accreditation terms and conditions.

In order to be eligible for initial or continuing accreditation, the Doctor of Pharmacy program must be part of an independent College or School of Pharmacy or a College or School of Pharmacy within a University, which is regularly incorporated and is a legally empowered postsecondary educational institution. The institution housing the College or School, or the independent College or School, must be accredited by a regional accreditation agency recognized by the U.S. Department of Education, another agency acceptable to the Accreditation Council for Pharmacy Education (ACPE), or actively seeking such status and in good standing with that agency. Accreditation standards call for a College or School of Pharmacy as an organizational unit and the administrative structure of the College or School of Pharmacy must provide for a Dean, who serves as the chief administrative and academic officer. Evaluation for purposes of preaccreditation and initial or continued accreditation requires an invitation by the chief executive officer, or designate, of the institution.

An action to "affirm" implies that a previously established accreditation term has been confirmed. An action to "continue" implies that the accreditation date has been extended. The customary review cycle for established accredited programs is eight years.

The customary review cycle for new programs achieving initial accredited status is two years. The dates indicated in parentheses for each College or School are the academic year of the most recent determination of accreditation status and the academic year of the next scheduled comprehensive or focused review for determination of accreditation status, and thus define the present accreditation term

for the Doctor of Pharmacy program. An (*) following these dates indicate a shortened accreditation term. The accreditation actions are as follows:

Continued Accredited Status

Pacific University School of Pharmacy

Doctor of Pharmacy Program: Accredited status continued. (2022-2023) (2024-2025)*

Standard cited as Partially Compliant: Standard No. 18: Faculty and Staff - Quantitative Factors on the basis of faculty coverage to deliver all required disciplines and content.

Saint Joseph's University (University of the Sciences) Philadelphia College of Pharmacy

Doctor of Pharmacy Program: Accredited status continued. (2022-2023) (2024-2025)*

The ACPE Board of Directors finds the Doctor of Pharmacy program to be in compliance with all accreditation standards.

Touro University – California College of Pharmacy

Doctor of Pharmacy Program: Accredited status continued. (2022-2023) (2024-2025)*

The ACPE Board of Directors finds the Doctor of Pharmacy program to be in compliance with all accreditation standards.

University of North Texas Health Science Center UNT System College of Pharmacy

Doctor of Pharmacy Program: Accredited status continued. (2022-2023) (2030-2031)

The ACPE Board of Directors finds the Doctor of Pharmacy program to be in compliance with all accreditation standards.

University of Southern California School of Pharmacy

Doctor of Pharmacy Program: Accredited status continued. (2022-2023) (2030-2031)

The ACPE Board of Directors finds the Doctor of Pharmacy program to be in compliance with all accreditation standards.

Xavier University of Louisiana College of Pharmacy

Doctor of Pharmacy Program: Accredited status continued. (2022-2023) (2030-2031)

The ACPE Board of Directors finds the Doctor of Pharmacy program to be in compliance with all accreditation standards.

Accredited with Probation Status

American University of Health Sciences School of Pharmacy

Doctor of Pharmacy Program remains Accredited with Probation status (appealable). (2021-2022) (2023-2024)*

Standards cited in this action as Noncompliant: Standards 1: Foundational Knowledge and Standards No. 24: Assessment Elements for Section I: Educational Outcomes were found Noncompliant on the basis of the program's NAPLEX® pass rate (as noted on the NABP website), which may indicate a lack of the necessary foundational knowledge, content delivery, and/or assessment related to knowledge attainment of the expected educational outcomes. Standard No. 21: Physical Facilities and Educational Resources was found Noncompliant due to a lack of access to adequate and appropriately equipped physical and educational facilities. A focused visit will be conducted in spring 2024 to evaluate Standards 1, 21, and 24.

Removal of Accredited with Probation Status

Chicago State University College of Pharmacy

Doctor of Pharmacy Program: Accredited status restored and continued. (2022-2023) (2025-2026)

Standard cited in this action as Partially Compliant: Standard No.1: Foundational Knowledge.

Standard still cited as Partially Compliant: Standard No. 24: Assessment Elements for Section I: Educational Outcomes. These standards were found Partially Compliant on the basis of the program's NAPLEX® pass rate (as noted on the NABP website), which may indicate a lack of the necessary foundational knowledge, content delivery, and/or assessment related to knowledge attainment of the expected educational outcomes.

Authorization of On-Site Evaluation

Hampton University School of Pharmacy

A comprehensive on-site evaluation was authorized to be conducted during fall 2023 to provide the basis for the Board's consideration of Precandidate status of the Doctor of Pharmacy program at the January 2024 meeting.

Continued Accredited Status (after initial two-year term)

Binghamton University State University of New York School of Pharmacy and Pharmaceutical Sciences

Doctor of Pharmacy Program: Accredited status continued. (2022-2023) (2026-2027)

William Carey University School of Pharmacy

Doctor of Pharmacy Program: Accredited status continued. (2022-2023) (2026-2027)

Focused On-Site Evaluation Visits

Focused evaluation visits are authorized when the Board is desirous of additional monitoring to evaluate various programmatic issues and/or initiatives, e.g., adding a branch campus or launching a new pathway. An action to "affirm" implies that a previously established accreditation term has been confirmed. An action to "continue" implies that the accreditation date has been extended, usually to reestablish the customary eight-year cycle.

Review of Complaints

Twelve complaints, with all complaints from either a student or faculty member from one of eight accredited Doctor of Pharmacy programs, were received during the spring 2023 cycle. Following the Board's review of each complaint, two complaints are open and awaiting additional information. All other complaints have been closed based upon the results of ACPE's investigation. The ACPE Board affirmed its policy to not investigate anonymous complaints unless there is a reason to suspect physical danger at the college/school or to the complainant.

Policy Updates

The ACPE Board of Directors approved an update to the Policies and Procedures Manual in June 2023 to update language in the annual monitoring policy. The updated manual can be found on the ACPE website at: <https://www.acpe-accredit.org/pdf/CSPoliciesandProceduresJune2023.pdf>. The ACPE Board of Directors also discussed the Multistate Pharmacy Jurisprudence Examination® (MPJE®) scores and trends.

Standards Revision

ACPE began the standards revision process in fall 2022 using the stepwise process previously adopted by the ACPE Board. A report on work to date was provided at the June 2023 ACPE Board of Directors meeting.

III. Accreditation Actions for Providers of Continuing Pharmacy Education.

The ACPE Board of Directors accepted the report of the ACPE Continuing Pharmacy Education Commission at the June 14-16, 2023, meeting. Results of the evaluation of submitted applications and ACPE-accredited providers reviewed for reaccreditation by the Commission were presented to the ACPE Board of Directors in June 2023. These are depicted in these Report of the Proceedings as follows:

1.	Accreditation of New Applications. Organizations seeking ACPE-accredited provider status are asked to submit an Application for Initial Accreditation. This application asks questions regarding the applicant's experience relative to areas addressed by ACPE's standards for continuing pharmacy education. Initial terms of accreditation are usually for a short term with a First Review in 1 year and a Second Review in 2 years.			
	Applicant Organization	Provider Type	State	Term

1.	NBLS, Inc.	Educational Company	FL	Spring 2027

4.	Consideration for Continued Accreditation on the Basis of Comprehensive Reviews. The submitted Self-Assessment Report undergoes a CPE Commissioner review, an internal (ACPE staff) review, an external (Field reviewer) review, a review of all records including correspondence, Activity Description Forms (ADFs), complaints (if any) and third-party comments. The Comprehensive Review for Continued Accreditation provides the basis for the ACPE Board's action to continue the provider's term of accreditation. The standard term of accreditation is six years.

IV. Accreditation Actions for Joint Accreditation for Interprofessional Continuing Education™

Eleven new applicants, six reaccreditations, and fifteen progress reports are presented for review this cycle. The decisions will be presented when each of the three boards from the Accreditation Council for Pharmacy Education (ACPE), American Nurses Credentialing Center (ANCC) and the Accreditation Council for Continuing Medical Education (ACCME) convene.

V. Continuing Professional Development (CPD)

The ACPE Board of Directors approved an ACPE Accreditation Framework for a *Continuing Professional Development Program* which includes the *Criteria* for organizations to develop a *Continuing Professional Development Program, A Model for Continuing Professional Development Credit, and Policies and Procedures*. Educational webinars and workshops will be conducted during the summer and fall of 2023. Implementation of the ACPE Accreditation Framework for a *Continuing Professional Development Program* is planned for January 2024.

VI. International-Accreditation and International-Preaccreditation Actions for Professional Degree Programs based outside the United States of America and its Territories:

International-Accreditation and International-Preaccreditation Actions

On the basis of self-study reports, interim reports, evaluation visits, communications received from the institutions, as well as the comments and recommendations of the ACPE International Commission, the Board of Directors determined the International-Accreditation Status of the following professional degree programs, along with International-Accreditation Term and conditions.

In order to be eligible for International-Accreditation or International-Preaccreditation, the professional degree program in pharmacy must be part of an independent school of pharmacy, a school of pharmacy within a university, or other structure approved by the Board. The school or university must be a postsecondary educational institution that is regularly incorporated, legally empowered, and authorized to award such a degree in accordance with national and/or regional laws and regulations. The institutional environment or setting for the professional degree program must be equivalent to a university and include a mission that encompasses professional education, scholarship, research, and service. To be granted International-Accreditation, the school of pharmacy must have graduated at least one class of students from the professional degree program in pharmacy for which International-Accreditation is being applied. Evaluation for purposes of granting or continuing of International-Accreditation or International-Preaccreditation by ACPE requires an invitation by the chief executive officer or designate of the institution.

To apply for International-Accreditation or International-Preaccreditation, a school must submit an application, a self-study report of the program, and any additional materials specified by ACPE. After receipt of the application, self-study report, and other required materials, a preliminary review of the application is conducted to confirm eligibility and evaluate the application. The findings and conclusions from the review are presented to the International Commission, which in turn makes a recommendation to the Board regarding authorization of an evaluation visit. If the Board authorizes an evaluation visit, it is scheduled in accord with standard evaluation and operational procedures.

A program applying for initial International-Accreditation may be awarded Provisional International-Accreditation by the Board. There are two categories of Provisional International-Accreditation - Category 1 and Category 2. It is possible for both categories to be awarded to a program; when this

scenario applies, advancement to International-Accreditation is determined by both factors. Provisional International-Accreditation (Category 1) is awarded to a program if there are compliance issues. Provisional International-Accreditation (Category 1) is awarded for a maximum period of two (2) years; within that period, if the Criterion is brought into compliance, the program can advance to International-Accreditation. Provisional International-Accreditation (Category 2) is awarded to a program whose comprehensive initial evaluation visit was conducted using a virtual format (Virtual Site Visit or VSV). An on-site Verification Visit must be successfully conducted for the program to advance from Provisional International-Accreditation (Category 2) to International-Accreditation.

The customary term for programs granted initial International-Accreditation is two years. The customary review cycle (period between comprehensive evaluation visits) for established internationally-accredited programs is six years. The dates indicated in parentheses for each school below are the academic year¹ of the most recent determination² of International-Accreditation Status and/or International-Accreditation Term and the academic year of the next scheduled determination of International-Accreditation Status and/or Term, and thus define the present International-Accreditation Term for the professional degree program.

The International-Accreditation Actions of the Board were as follows:

For Purposes of Considering Authorizing the Initial Evaluation Visit for International-Accreditation

The Board authorized evaluation visits to be conducted for the following programs:

**Al-Mustansiriyah University, College of Pharmacy, Baghdad, Republic of Iraq
Bachelor of Science in Pharmacy (BSc. Pharmacy) Degree Program**

For Purposes of Considering Authorizing the Initial Evaluation Visit for International-Preaccreditation

The Board authorized an evaluation visit to be conducted for the following program:

**University of Management and Technology, School of Pharmacy, Lahore, The Islamic Republic of Pakistan
Doctor of Pharmacy (PharmD) Degree Program**

For Purposes of Considering Granting International-Accreditation

The Board granted **Provisional International-Accreditation (Category 2)** to the following programs. This status was granted solely on the basis that the evaluation was conducted online, due to travel restrictions to the countries in question.

**Ain Shams University, Faculty of Pharmacy, Cairo, The Arab Republic of Egypt
Bachelor of Pharmacy (PharmD) and Bachelor of Pharmacy (PharmD – Clinical Pharmacy)
Degree Programs (2022-2023) (2024-2025)**

¹ For consistency, evaluation cycles and academic years are named in accordance with the standard terminology used by ACPE for accreditation and international-accreditation activities and reporting. Academic years run from July 1 to June 30.

² Determination includes granting of International-Accreditation Status, a change of International-Accreditation Status, a continuation of International-Accreditation Status (new Term), and other changes of an International-Accreditation Term (e.g., shortening); it does not include affirmation of an existing International-Accreditation Status and Term.

**Arab Academy for Science, Technology, and Maritime Transport, College of Pharmacy, Alexandria and El-Alamein, The Arab Republic of Egypt
Bachelor of Pharmacy (PharmD) and Bachelor of Pharmacy (PharmD – Clinical Pharmacy) Degree Programs (2022-2023) (2024-2025)**
