

ACCREDITATION COUNCIL FOR PHARMACY EDUCATION
REPORT OF PROCEEDINGS
June 11-13, 2025

I. Public Interest Panel Review of Professional Degree Programs

The ACPE Public Interest Panel met on June 4, 2025, to discuss the professional degree programs scheduled for review by the ACPE Board of Directors during its June 11-13, 2025, meeting. Evaluation team reports and other materials associated with the evaluation of the professional degree programs were duly considered, and a report of the Panel's discussion was prepared and presented to the ACPE Board at its June 11-13, 2025, meeting. The Board considered the comments and recommendations of the Panel. Panel members who participated in the meeting of the Public Interest Panel were: Tim Donovan and Mary Donnelly.

II. Accreditation Actions for Professional Degree Programs, taken at the ACPE Board of Directors Meeting, June 11-13, 2025

A list of accredited professional degree programs of colleges and schools of pharmacy, which designates the respective preaccreditation and accreditation status of the programs and the academic year for the next currently scheduled evaluation, is posted on the ACPE web site at www.acpe-accredit.org.

Accreditation Actions

On the basis of self-studies, comprehensive and focused evaluations, communications received from the institutions, ongoing annual review of North American Pharmacist Licensure Examination (NAPLEX) passing rates, entry class size, and attrition and on-time graduation rates, as well as the comments of the Public Interest Panel, the Board of Directors determined the accreditation status of the following professional programs, along with preaccreditation and accreditation terms and conditions.

In order to be eligible for initial or continuing accreditation, the Doctor of Pharmacy program must be part of an independent College or School of Pharmacy or a College or School of Pharmacy within a University, which is regularly incorporated and is a legally empowered postsecondary educational institution. The institution housing the College or School, or the independent College or School, must be accredited by a regional accreditation agency recognized by the U.S. Department of Education, another agency acceptable to the Accreditation Council for Pharmacy Education (ACPE), or actively seeking such status and in good standing with that agency. Accreditation standards call for a College or School of Pharmacy as an organizational unit and the administrative structure of the College or School of Pharmacy must provide for a Dean, who serves as the chief administrative and academic officer. Evaluation for purposes of preaccreditation and initial or continued accreditation requires an invitation by the chief executive officer, or designate, of the institution.

An action to "affirm" implies that a previously established accreditation term has been confirmed. An action to "continue" implies that the accreditation date has been extended.

The customary review cycle for established accredited programs is eight years. The customary review cycle for new programs achieving initial accredited status is two years.

The dates indicated in parentheses for each College or School are the academic year of the most recent determination of accreditation status and the academic year of the next scheduled comprehensive or focused review for determination of accreditation status, and thus define the present accreditation term for the Doctor of Pharmacy program. An (*) following these dates indicate a shortened accreditation term.

The accreditation actions are as follows:

Review of Complaints

Twenty-five complaints, with all complaints from either a student or faculty member from one of thirteen accredited Doctor of Pharmacy programs, were received during the spring 2025 cycle. Following the Board's review of each complaint, four complaints are open and awaiting additional information. All other complaints have been closed based upon ACPE's investigation.

Policy Updates

The ACPE Board of Directors approved an update to the Policies and Procedures Manual in June 2025 to remove references and information related to Standards 2016, as well as changes to the annual monitoring policy regarding NAPLEX first time pass rates and core faculty strength. The updated manual can be found on the ACPE website at:

<https://www.acpe-accredit.org/pdf/CSPoliciesandProceduresJune2025.pdf>.

Standards Revision

At its June 2025 meeting, the ACPE Board of Directors modified wording in Standards 2025 and the corresponding self-study rubric. The effective date for Standards 2025 is July 1, 2025.

III. Accreditation Actions for Providers of Continuing Pharmacy Education.

The ACPE Board of Directors accepted the report of the ACPE Continuing Pharmacy Education Commission at the June 11-12, 2025, meeting. Results of the evaluation of submitted applications and ACPE-accredited providers reviewed for reaccreditation by the Commission were presented to the ACPE Board of Directors in June 2025. These are depicted in these Report of the Proceedings as follows:

1.	Accreditation of New Applications. Organizations seeking ACPE-accredited provider status are asked to submit an Application for Initial Accreditation. This application asks questions regarding the applicant's experience related to areas addressed by ACPE's standards for continuing pharmacy education. Initial terms of accreditation are usually for a short term with a First Review in 1 year and a Second Review in 2 years.			
	Applicant Organization	Provider Type	State	Term
1.	Practicing Pharmacists Institute, Inc.	Educational Company	FL	2-year term
2.	University of Rochester Medical Center	Hospitals; Healthcare Network	NY	2-year term

2.	Submission of First Review Reports by Applicants Accredited in Spring 2024.

3.	PharmcareUSA	Educational Companies	OK	Spring 2029
4.	Simplified Socratic RX Institute	Educational Companies	CA	Spring 2029

4.	Consideration for Continued Accreditation on the Basis of Comprehensive Reviews. The submitted Self-Assessment Report undergoes a CPE Commissioner review, an internal (ACPE staff) review, an external (Field reviewer) review, a review of all records including correspondence, Activity Description Forms (ADFs), complaints (if any) and third-party comments. The Comprehensive Review for Continued Accreditation provides the basis for the ACPE Board's action to continue the provider's term of accreditation. The standard term of accreditation is six years.

IV. Accreditation Actions for Joint Accreditation for Interprofessional Continuing Education™

Ten (10) new applicants, eighteen (18) reaccreditations, thirteen (13) progress reports, and one complaint were presented to review this cycle. The decisions were presented when each of the three boards from the Accreditation Council for Pharmacy Education (ACPE), American Nurses Credentialing Center (ANCC) and the Accreditation Council for Continuing Medical Education (ACCME) convene.

ACPE made twenty-eight (28) accreditation decisions and thirteen progress report decisions for Joint Accreditation for Interprofessional Continuing Education™.

Four (4) initial applicants achieved Joint Accreditation for Interprofessional Continuing Education and need to submit progress reports within one year. Two (2) initial applicants achieved Joint Accreditation for Interprofessional Continuing Education without a progress report. Three (3) initial applicants did not receive joint accreditation. One (1) initial applicant was awarded Joint Accreditation with Commendation.

Eighteen (18) jointly accredited providers were reaccredited; six (6) providers need to submit progress reports within one year and four (4) jointly accredited providers received Joint Accreditation with Commendation.

For providers who submitted progress reports: eleven (11) jointly accredited providers demonstrated that all criteria have been brought into compliance and two (2) jointly accredited providers need to submit documentation within their comprehensive review.

These decisions have also been made by the Accreditation Council for Continuing Medical Education (ACCME) and the American Nurses Credentialing Center. The ACCME, ACPE, and ANCC collaborate to offer a single pathway for accreditation for organizations offering interprofessional continuing education (IPCE).

V. Continuing Professional Development (CPD)

In January 2024, the ACPE Board of Directors approved an ACPE Accreditation Framework for a *Continuing Professional Development Program* which includes the *Criteria* for organizations to develop a *Continuing Professional Development Program*, *A Model for Continuing Professional Development Credit*, and *Policies and Procedures*. Educational webinars and workshops are being conducted; for specific information, guidance, and examples, please see the website: <https://www.acpe-accredit.org/continuing-professional-development/>.

1.	Accreditation of New Applications seeking ACPE-accredited CPD program status are asked to submit an application for Initial Accreditation. This application asks questions regarding the applicant's experience related to areas addressed by ACPE's principles for continuing professional development.

VI. International-Accreditation and International-Preaccreditation Actions for Professional Degree Programs based outside the United States of America and its Territories:

International-Accreditation and International-Preaccreditation Actions

On the basis of self-study reports, interim reports, evaluation visits, communications received from the institutions, as well as the comments and recommendations of the ACPE International Commission, the Board of Directors determined the International-Accreditation Status of the following professional degree programs, along with International-Accreditation Term and conditions.

In order to be eligible for International-Accreditation, the professional degree program in pharmacy must be part of an independent college of pharmacy, a college of pharmacy within a university, or other structure approved by the Board. The college or university must be a postsecondary educational institution that is regularly incorporated, legally empowered, and authorized to award such a degree in accordance with national and/or regional laws and regulations. The institutional environment or setting for the professional degree program must be equivalent to a university and include a mission that encompasses professional education, scholarship, research, and service. To be granted International-Accreditation, the college of pharmacy must have graduated at least one class of students from the professional degree program in pharmacy for which International-Accreditation is being applied. Evaluation for purposes of granting or continuing of International-Accreditation or International-Preaccreditation by ACPE requires an invitation by the chief executive officer or designate of the institution.

To apply for International-Accreditation or International-Preaccreditation, a college must submit an application, a self-study report of the program, and any additional materials specified by ACPE. After receipt of the application, self-study report, and other required materials, a preliminary review of the application is conducted to confirm eligibility and evaluate the application. The findings and conclusions from the review are presented to the International Commission, which in turn makes a recommendation to the Board regarding authorization of an evaluation visit. If the Board authorizes an evaluation visit, it is scheduled in accord with standard evaluation and operational procedures.

“International-Accreditation (online evaluation)” is awarded to a program whose comprehensive initial evaluation visit was conducted online. An on-site Verification Visit must be successfully conducted for the program to redesignated from “International-Accreditation (online evaluation)” to International-Accreditation.

A program applying for initial International-Accreditation may be awarded Provisional International-Accreditation by the Board if there are compliance issues. Provisional International-Accreditation is awarded for a maximum period of two (2) years; within that period, if the Criterion is brought into compliance, the program can advance to International-Accreditation.

The customary term for programs granted initial International-Accreditation is two years. The customary review cycle (period between comprehensive evaluation visits) for established internationally-accredited programs is six years. The dates indicated in parentheses for each college below are the academic year¹ of the most recent determination² of International-Accreditation Status and/or International-Accreditation Term and the academic year of the next scheduled determination of International-Accreditation Status and/or Term, and thus define the present International-Accreditation Term for the professional degree program.

¹ For consistency, evaluation cycles and academic years are named in accordance with the standard terminology used by ACPE for accreditation and international-accreditation activities and reporting. Academic years run from July 1 to June 30.

² Determination includes granting of International-Accreditation Status, a change of International-Accreditation Status, a continuation of International-Accreditation Status (new Term), and other changes of an International-Accreditation Term (e.g., shortening); it does not include affirmation of an existing International-Accreditation Status and Term.
