

Healthcare Continuing Education Professionals Day™

CEimpact

Health System

By supporting healthcare professionals in their learning journeys, our accredited providers are helping to build a healthier future. Today, on Healthcare Continuing Education Professionals Day™, we celebrate the role ACPE-accredited providers play in advancing healthcare!

#CEProfessionalsDay

WHAT HAS BEEN YOUR PROUDEST ACCOMPLISHMENT AS A CE PROVIDER OR ADMINISTRATOR?

Our proudest accomplishment as a CE provider has been evolving alongside the profession while staying grounded in learning science and evidence-based education. As the quality, speed, and volume of information have increased, we have remained committed to delivering timely, credible education while continually adapting our approaches.

WHAT DO YOU SEE AS THE BIGGEST OPPORTUNITY FOR CE IN THE NEXT DECADE?

The biggest opportunity for CE in the next decade is its ability to support the evolving standard of care and the expanding scope of practice for pharmacists and pharmacy technicians, while serving as a trusted source of truth in an increasingly crowded and opinion-driven information landscape.

WHAT ADVICE WOULD YOU GIVE TO NEW CE PROVIDERS OR ADMINISTRATORS TODAY?

My advice to a new CE provider is to ground your programming in strong, credible sources that support educational best practices and evidence-based learning. Take the time to truly know your audience and understand their needs, challenges, and practice environments. Finally, engage actively with ACPE as a robust resource for guidance, support, and continuous improvement as you grow and evolve your CE programs.

IF YOU COULD DESCRIBE YOUR CE PROGRAM IN ONE WORD OR A SHORT PHRASE, WHAT WOULD IT BE — AND WHY?

We equip pharmacy professionals and the organizations that support them with the education and tools they need for success.
