

Status

Precandidate status: A new program that has no students enrolled but that meets the eligibility criteria for accreditation may be granted Precandidate accreditation status. The granting of Precandidate status indicates that a college or school's planning for the Doctor of Pharmacy program has taken into account ACPE standards and guidelines and suggests reasonable assurances of moving to the next step, that of Candidate status. Granting of Precandidate status brings no rights or privileges of accreditation. Full public disclosure by the college or school of pharmacy of the terms and conditions of this accreditation status is required.

Candidate Status: Once students have enrolled in a new program, but the program has not had a graduating class, the program may be granted Candidate status. The granting of Candidate status denotes a developmental program that is expected to mature in accord with stated plans and within a defined time period. Reasonable assurances are expected to be provided that the program may become accredited as programmatic experiences are gained, generally, by the time the first class has graduated. Graduates of a class designated as having Candidate status have the same rights and privileges as graduates of an accredited program

Accreditation Status: The professional degree program of a college or school of pharmacy is granted accreditation status if it has been demonstrated to the satisfaction of ACPE that the program complies with accreditation standards, including the appropriateness of the program's mission and goals, the adequacy of resources and organization to meet the mission and goals, outcomes which indicate that the mission and goals are being met, and the reasonable assurance of the continued compliance with standards.
